

**PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.**

Call to Order

4:00 PM

Pledge of Allegiance

Pledge was recited.

Roll Call

Present: Supervisor Stephen Lang, Clerk Kate Szydowski, Treasurer Jennifer Wiczorkowski, and Trustee Mark Devers.

Absent: Trustee Mary O'Neill **attended the meeting remotely but was unable to participate per the Michigan Open Meetings Act (1976 PA 267).**

Consent Agenda

- | | |
|-------------------------------------|------------|
| a. Approval of the 12-9-24 Minutes. | |
| b. Treasurers Report – Wiczorkowski | In packet. |
| c. Clerks Report – Paavola | In packet. |
| d. PC Report - Paavola | In packet. |
| e. P&R Report – Wiczorkowski | No report. |
| f. ZBA Report – O’Neill | In packet. |
| g. Zoning Report – Lang | No report. |
| h. Supervisor Report – Lang | No report. |
| i. Assessors Report – Spencer | No report. |
| j. Museum Society Report – Milstein | No report. |
| k. Library Report – Rogers | In packet. |
| l. Facilities Report – Bedard | In packet. |
| m. Fire Dept. Report – LaCross | In packet. |
| n. EGLFD Report – Koel | In packet. |
| o. Historian Report | No report. |
| p. Correspondence | In packet |

Approval of Consent Agenda:

A motion was made by Devers, supported by Wiczorkowski, to approve the consent agenda. All ayes. Motion carried.

Approval of Agenda

A motion was made by Wiczorkowski, supported by Szydowski, to approve the agenda with three additions to New Business:

1. Clerk’s Institute
2. PITFD Ice Rescue Training
3. 2025 Volunteer Fire Dept. Agreement

**PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.**

All ayes. Motion carried.

Audience Comments: (3-minute limit)

None.

Board Comments:

a. Supervisor

1. **EGLFD -ISO**
2. **DNR Trails**
3. **Cell Phone Tower**

Supervisor:

1. Lang reported that the East Grand Lake Fire Department has maintained its 07 rating from the Insurance Services Office (ISO).
2. Lang stated that the Michigan Department of Natural Resources (DNR) has teamed up with students at Michigan State University to help communities with trail-planning efforts. He indicated that the collaborative project will soon be assisting with trail development in the township.
3. Lang noted that a cell phone tower (which was approved by the Presque Isle Township Planning Commission) has been erected on US-23 but will not be operational until the end of February 2025.

Public Hearings:

- a. **Lake Street, Garner Hwy., and Fireside Hwy.**
- b. **Kauffman Rd. and Kauffman Blvd.**

Lake Street, Garner Hwy., and Fireside Hwy: Lang next opened a public hearing on the proposed Lake Street, Garner Highway and Fireside Highway special assessment district. Lang began by introducing Township attorney Tim Gulden, Presque Isle County Road Commission Superintendent Dave Kowalski and County Road Engineer Mark Straley who were present to answer questions on the process, plans and cost estimate of the project.

Gulden explained that if written objections were received from landowners constituting more than 20% of the total frontage, the board would not proceed to make the road improvements. He stated that the special assessment would then only move forward if the board received a petition signed by property owners constituting more than 50% of the total frontage. Gulden then instructed audience members to put their objections in writing and submit them to the board before the end of the meeting.

**PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.**

The board next heard questions and comments from fourteen (14) members of the audience, mostly concerned with the project's costs.

When there were no further comments, it was determined by the board that the objections had exceeded 20% and the special assessment would not proceed at present.

Before closing the public hearing, Lang informed the audience that a petition for those still in favor of the road improvements would be made available on the township's website and at the township hall. He added that the proposed special assessment roll could also be viewed at those locations.

Kauffman Rd. and Kauffman Blvd.: Lang next opened a public hearing on the proposed Kauffman Road and Kauffman Boulevard special assessment district. Lang noted that the property owners had agreed to divide the cost by the total number of property owners. He also stated that the cost per owner would be \$738, which could be financed over five years.

The board next heard questions and comments from seven (7) members of the audience.

An inquiry was made regarding future special assessments of the Presque Isle Harbor Association. Devers suggested that the board put in writing that owners within the Kauffman Road and Kauffman Boulevard special assessment district would not be charged again should the Presque Isle Harbor Association create its own special assessment district for road improvements. The recommendation was neither accepted nor rejected by the board.

When there were no further comments, the board determined that written objections from landowners constituting more than 20% of the total frontage upon the roads being improved in the special assessment district had

**PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.**

not been reached and the special assessment would proceed.

Lang then read aloud the Kauffman Rd. and Kauffman Blvd. Special Assessment District Resolution of Adoption.

A motion was made by Szydlowski, supported by Wieczorkowski, to approve the resolution with one revision to the list of parcels. A roll call vote was taken. All ayes. Motion carried.

The board then heard further questions from the audience about the road improvement plans before the public hearing was closed.

Next, the board heard questions from the audience regarding Holcim and its plans for property rezoning. Planning Commission Chair and Community Advisory Group member Tom Guyer stated that in 2025, Holcim will be seeking to reclassify its Forest and Recreation lands as Residential. He informed the audience that the issue will be raised at a future Planning Commission meeting.

The board then discussed the next steps for the Kauffman Rd. and Kauffman Blvd. special assessment district and agreed that Gulden would prepare the next resolution.

The board also agreed to schedule future special assessment hearings apart from regular meetings.

Unfinished Business:

a. Hart v. PITWP Judgment

Lang provided an overview of a recent federal court case (*Hart v. Township of Presque Isle*) and reported that the judge had granted the township's motion for dismissal.

New Business:

a. Credit Card Signers

- 1. Facilities General Card**
- 2. Enterprise Card**

b. Pension Fund Administrator

Credit Card Signers:

- 1. A motion was made by Szydlowski, supported by Devers, to approve Township Projects and Facilities Manager Matt Bedard as signer for the Facilities**

PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.

- c. PC 2024 Annual Report**
- d. Assessor Certificate of Achievement**
- e. Minimum Wage Increase**
- f. Clerk Institute**
- g. PITFD Ice Rescue Training**
- h. 2025 Volunteer Fire Dept. Agreement**

General credit card. A roll call vote was taken. All ayes. Motion carried.

2. A motion was made by Devers, supported by Szydowski, to approve Township Treasurer Jennifer Wieczorkowski as signer for the Enterprise credit card. A roll call vote was taken. All ayes. Motion carried.

Pension Fund Administrator: A motion was made by Wieczorkowski, supported by Devers, to appoint Township Clerk Kate Szydowski as the Pension Fund Administrator for Presque Isle Township. A roll call vote was taken. All ayes. Motion carried.

PC 2024 Annual Report: Lang confirmed that board members had received and read the Presque Isle Township Planning Commission's 2024 annual report.

Assessor Certificate: Lang reported that Presque Isle Township was awarded a Certificate of Achievement from the State Tax Commission for receiving a perfect score on their 2024 PA 660 Assessment Audit Review.

Minimum Wage Increase: Lang discussed the Michigan minimum wage increases planned for this year.

Lang next commended Tom Guyer, Chair of the Planning Commission, who is leaving his position in February.

Clerk Institute: A motion was made by Wieczorkowski, supported by Devers, to approve lodging, mileage, meal, and registration expenses for a clerk certification class to be taken by Szydowski in March. A roll call vote was taken. All ayes. Motion carried.

PITFD Ice Rescue Training: A motion was made by Devers, supported by Wieczorkowski, to approve the Presque Isle Township Fire Department's request for ice rescue training at a cost of no more than \$5,500. A roll call vote was taken. All ayes. Motion carried.

**PRESQUE ISLE TOWNSHIP
Board of Trustees Minutes
January 13, 2025 - 4:00 p.m.**

2025 Volunteer Fire Dept. Agreement: A motion was made by Devers, supported by Wieczorkowski, to approve the DNR 2025 Volunteer Fire Capacity Project Agreement which provides funding to the PITFD for work to be performed for the *Chainsaw and Wildland Fire Tools* project. A roll call vote was taken. All ayes. Motion carried.

Future Agenda Items:

None.

Audience Comments: (3-minute limit per audience member)

The board heard from one (1) audience member.

Adjournment:

5:39pm.

Meeting Reminder: The next meeting is scheduled for Monday, February 10th, 2025, at 4pm.

RE: Planning Commission Report

Board of Trustees,

- Election of Officers –
 - Chair, Lisa Larkin
 - Vice Chair, Stacy Holmén
 - Secretary, Cynthia Paavola
 - ZBA Liaison, Cynthia Paavola

- Time of Transfer Ordinance (Septic/Well Inspection) was discussed. A few minor changes were made, and the draft will be submitted to the Township attorney and NEMCOG for review and edits.

- Tree Ordinance – discussion and consideration was had by commission members regarding the township pursuing a possible Tree Ordinance. The consensus was that something should be added regarding this issue. Further information will be obtained from the township attorney and shared at the next meeting to assist with the direction of either a modification of an existing ordinance or creating a new one.

- 2024 Annual Report (See Attached) was approved and will be presented at the January 13th meeting.

PRESQUE ISLE TOWNSHIP

2024 ANNUAL REPORT TO TOWNSHIP BOARD OF TRUSTEES

Pursuant to Section 308 of the Michigan Zoning Enabling Act, MCL 125.3101 et. seq., the Presque Isle Township Planning Commission ("PC") submits this 2024 Annual Report to the Township Board of Trustees ("BOT").

2024 was another busy year for the PC. Eleven meetings were held, and the PC passed amendments to dock and accessory structure ordinances. The PC also drafted and adopted a Jake Brake ordinance and added several categories to the schedule of permitted activities in the C-1 district. All the above actions were taken after the PC conducted public hearings, made formal findings of fact and submitted the proposed change to the County Planning Commission. The BOT approved all the above actions.

The PC also held public hearings on site plan applications to construct a wireless communication facility and tower and a request to construct an accessory structure larger than 1200 square feet. Both applications were approved.

The PC also responded to audience complaints about firearm discharges on Brown Island by drafting a resolution recommending the BOT request the DNR to conduct a hearing.

The bulk of the PC's time in 2024 related to three major projects: amending the Township's Commercial Wind, Solar and Battery storage ordinance, drafting and approving a Master Plan, and working on a potential Septic ordinance

1) Commercial Wind, Solar and Battery Storage Ordinance Amendment.

In 2023 the Michigan legislature passed Public Act 233 pertaining to commercial wind, solar and battery storage facilities. At the time PA 233 was enacted the Township had a comprehensive wind and solar ordinance. PA 233 gave a commercial green energy developer the ability to bypass a local Township and directly petition the Public Service Commission for approval of its project. The Act contained minimal restrictions on the construction of the project. Thus, it was probable that any commercial green energy developer would bypass the Township with its application.

PA 233 did provide one advantage for a local township: the approval process from a township took only six months whereas an application to the Public Service Commission took 12 months. Therefore, the task before the PC was to draft an ordinance that contained restrictions that would protect Township residents but that wouldn't cause the developer to bypass the Township. Working with NEMCOG the PC drafted an ordinance with greater restrictions than those afforded by PA233 but were not so great they would cause the developer to bypass the Township. The ordinance was approved by the BOT.

2) Master Plan.

Under the Michigan Planning Enabling Act, MCL 125.3801 et. seq., a township is required to adopt a comprehensive Master Plan to guide future growth and development in the township. Townships are required to promulgate a new or updated Master Plan every five years. The Township's last Master Plan was adopted in 2014 and renewed verbatim in 2019, making a new Master Plan due in 2024.

Typically, a township hires a consultant to work directly with the PC to draft a Master Plan. For the 2024 Master Plan, the Township retained NEMCOG as its consultant. But rather than having NEMCOG work directly with the PC, the PC appointed an advisory committee consisting of the Township Supervisor, two members of the PC, and six resident volunteers representing different age groups, geographic areas, and employment status. These volunteers worked tirelessly with NEMCOG to draft a Master Plan which was unanimously approved by the PC, the County Planning Commission and the BOT.

3) Septic Ordinance.

A citizen called the PC's attention to the fact that several Michigan townships and counties have passed what are known as "Time of Transfer" ordinances. Those ordinances provide that real property with a septic field cannot be transferred until the septic tank and field has been inspected by the local health department. If problems are found, they must be corrected before the sale can go through. The ordinance requires the cooperation of the local health department which is typically formalized through intragovernmental agreement with the township.

The PC discussed a Time of Transfer ordinance at every meeting in 2024. The Time of Transfer ordinances of other townships and counties were examined. Supervisors, zoning administrators and realtors in counties with Time of Transfer ordinances were consulted. A representative of the District 4 Health Department spoke and answered questions at two PC meetings. Audience members expressed a variety of opinions. This input led to the conclusion that there were two possible approaches to passing a septic ordinance. It was noted that the septic fields most likely to leak were older fields that were installed before the Health Department's permitting process. The septic ordinance could require homes without a permitted septic system to have inspections and then correct any deficiencies found. The problem with this approach was administrative; the Health Department records do not reflect which properties don't have permits, so the health department files for each property would need to be manually inspected, an onerous task. If, instead, the ordinance focused on property transfers, the problem of identifying properties to be inspected would be simplified. But older systems on properties that were not being transferred would not be inspected, and there were other ways a sale could be undetected. Ultimately the PC put together a draft ordinance that has both inspection of permit less systems and time of transfer provisions. The ordinance is limited to properties within 500 feet of a lake, river or stream.

The next step will be to have the ordinance reviewed and approved by Township counsel and NEMCOG, and then begin negotiating an intragovernmental agreement with the local Health Department.

For the year 2025, the PC hopes to finalize the septic ordinance. In addition, the quarry operator, Holcim, has indicated that it will initiate two major zoning change requests in 2025, insuring that 2025 will be another busy year for the PC.

Respectfully submitted,

Presque Isle Township Planning Commission

January 9, 2025

Memorandum For:
Presque Isle Township, Board of Trustees
From: Matthew G. Bedard, Facilities & Projects Manager

Subject: Project Status Report, December 2024

We Our township illuminated Christmas tree and wreath displays, at the New Lighthouse Park are projected to remain in-place until early March. We are continuing to maintain our winter walking trails at both the New and Old Lighthouse Parks. Please notify the Facilities & Projects Manager of any fallen trees or trail obstructions. We are continuing with our in-house repair and maintenance projects, in preparation for spring usage and installations.

1. Facility Maintenance:

Job Order MB 5420624 is a repair project to the windows of the 1870 Keeper's House. Several frame and sash components are deteriorated on the exterior frames, in both the first and second floor areas. We are manufacturing custom replacement frame components and replacing the old ones as needed. Status: One second-floor window repair is complete, there are five remaining that require significant repair or replacement. Each window replacement costs range from \$1500-\$2000. Estimated start: May 2025.

Job Order MB 5740224 is a replacement project to install a new BBQ grill near the Range Light Park pavilion. There is one existing grill near the playground equipment, on the north side of the property. This grill has been underutilized due to its distance from the pavilion. The new installation will be closer to the pavilion and parallel to the sidewalk. Status: On-hold until Spring 2025.

Job Order MB 5410124 is an upgrade project to increase the number and load capacity of exterior outlets located on the exterior walls of the 1905 House. The current double-receptacle box is near its maximum load drawn from activities in the New Lighthouse Park. We replaced the exterior outlets with 20-amp GFCI receptacles; breaker and service panel upgrades are needed to increase load capacity. Status: Awaiting Bid Proposals.

Job Order MB 5450124 is a maintenance upgrade to repaint the exterior of the vault toilet at the New Lighthouse Park. Additionally, we will install a turn vane on the ventilation shaft to increase upward draft. Status: 25% complete. Paused until Spring 2025.

Job Order: MB 5440623 is a maintenance project to repaint the exterior walls of Garrity Hall. The remaining walls on the south and east sides are in progress. Status: 75% complete. Paused until Spring 2025.

Job Order: MB 5210224 is repair project to replace the exterior screen doors on the east and west entrances in the Old Lighthouse Cottage. Status: One of two doors is complete; the second is being rebuild, in-house, with newly milled framing components. In progress: 25% complete.

Job Order: MB 541 02 24 is a repair and installation project to replace the submersible well pump at the New Lighthouse Park. The existing pump failed near the end of our operational season. We will contract with a well company to replace it before opening next spring. The new well pump installation will require certification inspection and water testing before we open water sources to the public: Awaiting start in Spring 2025.

2. Project Management:

Work Order 5210222 is a repair project to repair/repaint the water damage on interior of the southwest side of the Old lighthouse Keepers Cottage. Water intrusion from the roof was repaired from the hail damage insurance monies. Status: On hold until Spring 2025.

Work Order 5710123 is a repair project to replace the exterior walls and roof of the second story in the Range Light tower display. The metal roof was damaged and funded for replacement as part of the hail damage. However, upon inspection, the walls and framing materials deteriorated beyond portioned repair application. Therefore, we have elected to temporarily seal and paint the roof and rotted fascia areas as an interim repair. This project will be planned for a complete repair/replacement of the second-floor walls and roof framing components in 2024. Status: Awaiting start. Estimated cost: \$3600.

Work Order 5430124 is a maintenance project to re-paint the landing floor, walls, and interior door near the top of the New Lighthouse tower. We are currently scraping and prepping the floor. Painting will begin after the season closure for tower climbs. Status: In-Progress, 60% complete.

Work Order 5470124 is a grounds improvement project to create an overflow parking area near the entrance to the New Lighthouse Park. The parking plan will provide 50 additional parking spaces, as well as drive-through parking for RV and vehicle-trailer configurations. We have received a drafted plot plan and solicited two proposed bids thus far. Currently, the lowest bid is \$53.4K. We are also working with SHPO for site location approval. Status: In Planning.

Work Order 5250324 is a repair project to renovate the stockade display at the Old Lighthouse Park. Many of the floor decking boards and joists are deteriorated and need to be replaced. Status: On hold until Spring 2025.

Sincerely,

//SIGNED//
Matthew G. Bedard
Facilities & Projects Manager

To: Honorable Township Board Members

Re: December Monthly Report for Presque Isle Township Fire Department

Monthly runs

This month PITFD responded to a total of 4 calls, including two calls in which we transported, one call where care was turned over to Alpena ALS and one call resulting in a lift assist/patient refusal.

Training

This month we met once and deferred the second meeting due to holidays. Training included after action reviews of recent calls, discussion of protocol and practical training on victim rescue strategies in firefighter search and rescue.

We are planning and have scheduled a one day training on Ice Rescue, facilitated by Michigan Rescue Concepts. This is a refresher training we complete every couple years to maintain proficiency in ice rescue strategies. The cost for the training is discussed below in action items.

Air Compressor Trailer

PITFD maintains a diesel and electric air compressor trailer which is used to fill the air bottles for self contained breathing apparatus required for most firefighting operations. This trailer is our method of refilling our own bottles at the station and on scenes and is also requested by other departments when needed on structure fires to keep bottles supplied.

This inspection and service overhaul was completed as scheduled and the air trailer was found to be in good shape. With routine maintenance we hope to keep this in service for several years.

911 Reflective Signs

As reported before we received a grant from the Community Foundation to provide reflective 911 address signs to residents of District 2 at no cost to them. These signs help us to quickly find addresses and get to residence faster in emergencies.

We have began distribution of signs following the procedure published on our Facebook page and listed in the report for November.

To order 911 sign:

Call Station @ 989-595-3423 or email to pitfdfire@gmail.com

Leave message or email with following information:

1. Name and phone #.
2. Address.
3. Type of sign: vertical or horizontal.
4. Number of people in household.

Pick up signs at the Station first and third Saturdays of the month between 1000 and 1100 beginning in January.

Grant award

We were notified this week that we were awarded a grant from the DNR to purchase new chainsaws and additional wildland firefighting tools. The grant is for \$1250 with a match of \$1250 for a total of \$2500 for the project.

Action items

PITFD plans to cover the cost of the above mentioned ice rescue training which has been scheduled for February 1. We plan to have 10-20 people trained and have invited our mutual aid partners to send personnel. The estimated cost for the training is \$5263 and I am requesting approval from the board for up to \$5500 for the cost of the training. We do have a conference/training line item in our budget for this year.
